Previous Projects

Sassy Pets Adoption Application | mlward639.github.io/Project-One-Sassy-Pets | github.com/mlward639/Project-One-Sassy-Pets

- Collaborative project to create a pet adoption website giving prospective pet owners the ability to search through available pets in their area. In order to increase likelihood of adoption, jokes and humorous search criteria were added to help users make a connection to the pet.
- Role: Co-contributor
- Technologies used: CSS (including Boostrap), HTML, Javascript, Petfinder API, Joke API, jQuery, Google Font, Font Awesome

Weather Dashboard Application | mlward639.github.io/unit-six-homework | github.com/mlward639/unit-six-homework

- Created a dynamically updated weather dashboard displaying current and future 5-day weather conditions. Ability to save to localStorage and toggle through previously searched cities.
- Role: Sole author
- Technologies used: HTML, CSS, Javascript, and OpenWeather API

Random Password Generator Application | mlward639.github.io/unit-three-homework | github.com/mlward639/unit-three-homework

- Modified starter code to create an application that generates random passwords based on selectable criteria.
- Technologies used: HTML, CSS, and Javascript
- Role: Sole author

Work Experience:

Physician Assistant The Heart Center, Gainesville, GA

2017-2020

- Worked in the field of cardiology at one of the leading cardiac hospitals in Georgia
- Experience navigating the healthcare landscape, particularly in underserved patient populations with limited access to healthcare
- Job duties:
 - o Provided care for cardiac patients in the hospital and clinic setting
 - Collaborated with a team of physicians, APPs, nurses, case management, and administrative staff to coordinate high quality, evidence-based patient care
 - Educated patients and staff
 - o Coordinated patient care over multiple subspecialty areas
- Transferable skills include leadership skills, ability to work well and towards a common goal with a multidisciplinary team, knowledge of multiple EMRs, passion for service to others, administrative skills, time management, and a strong work ethic

Medical Assistant Ankle and Foot Centers of GA, Peachtree City, GA 7/14-12/14

- Performed direct patient care in an outpatient and surgical setting
- Increased office productivity and streamlined delivery of quality patient care by implementing time-saving policies among the medical assistants, improving office efficiency, and use of EMR
